Job Summary

The Program Manager will support implementation of All Home's core policy initiatives, particularly the Regional Action Plan (RAP) that sets a goal to reduce the Bay Area's unsheltered homelessness by 75% in three years. To support RAP implementation, All Home is developing a new toolkit to standardize governance and oversight for local homelessness programming in partnership with local jurisdictions. The Program Manager will usually be embedded with local governments to continue developing, refining, and implementing the toolkit. Implementation will include assisting local government agencies with research and analysis to implement the policies and programs outlined in this best practices toolkit. The County of San Mateo is our first partner co-piloting this project. Between agency assignments, the Program Manager will support related analytical tasks within All Home.

The ideal candidate will have experience working in California homelessness policy or programming as an analyst, researcher, or program manager with a familiarity of how programs are implemented at the state, county, and/or city level.

Key Responsibilities

Responsibilities will be diverse, complex, and evolve over time. Responsibilities include:

- Evaluate a local government's policies and business practices for overseeing and implementing homelessness programming.
- Augment analytical capacity for local government partners by performing business analytics that help inform management on how to align their governance structures, accountability measures, resource allocations, and community engagement over homelessness programming.
- Research, compile, and analyze a range of operational and financial data to better understand correlations between homelessness funding, program structures, and program outcomes.
- Translate analytical observations into written reports to educate and persuade policymakers, public administrators, and other stakeholders to implement policy recommendations.

Qualifications

- Minimum 4 years relevant experience performing analytical or administrative work in the public or nonprofit sector focused on housing and homelessness.
- Bachelor's degree in housing, city/regional planning, financial management, economics, business or public administration or a related field; alternatively, an Associate's degree plus two additional years of relevant work experience can be substituted for a Bachelor's degree.
- Demonstrable knowledge of at least a few of the following subject matters:
 - HUD and other federal funding for homelessness
 - State of California departments, programs, and funding related to homelessness
 - Bay Area political environment relating to housing and homelessness; experience working in the nine Bay Area counties a plus
 - Local government budgeting processes for housing and homelessness
 - Homelessness planning and reporting processes for Continuums of Care, county and city strategic plans, California HCFC HHAP grants and Local Action Plans, etc.
- Strong project management, time management, planning, and prioritization skills
- Ability to work in a diverse environment with a racial equity focus
- Excellent communication, interpersonal, and problem-solving skills
- Fluency with MS Office suite (particularly Excel and PowerPoint), Google Workspace, Zoom, Slack, and other communications channels for remote work
